Coalition for Recycling and Against Coventry Incinerator (CRACIN)

PETITION

We the undersigned call upon Coventry City Council, Solihull Council and Warwickshire County Council to halt their plans for a giant waste incinerator at Whitley in Coventry. We ask that each council works to drastically cut the amount of waste produced and provide recycling facilities to equal the best available in mainland Europe. We ask that any remaining local waste be treated without incineration in a modern plant without hazardous emissions into our atmosphere.
